**Welcome to the CTE/ProStart
Community in Mobilize**

Welcome to Mobilize

What is Mobilize?

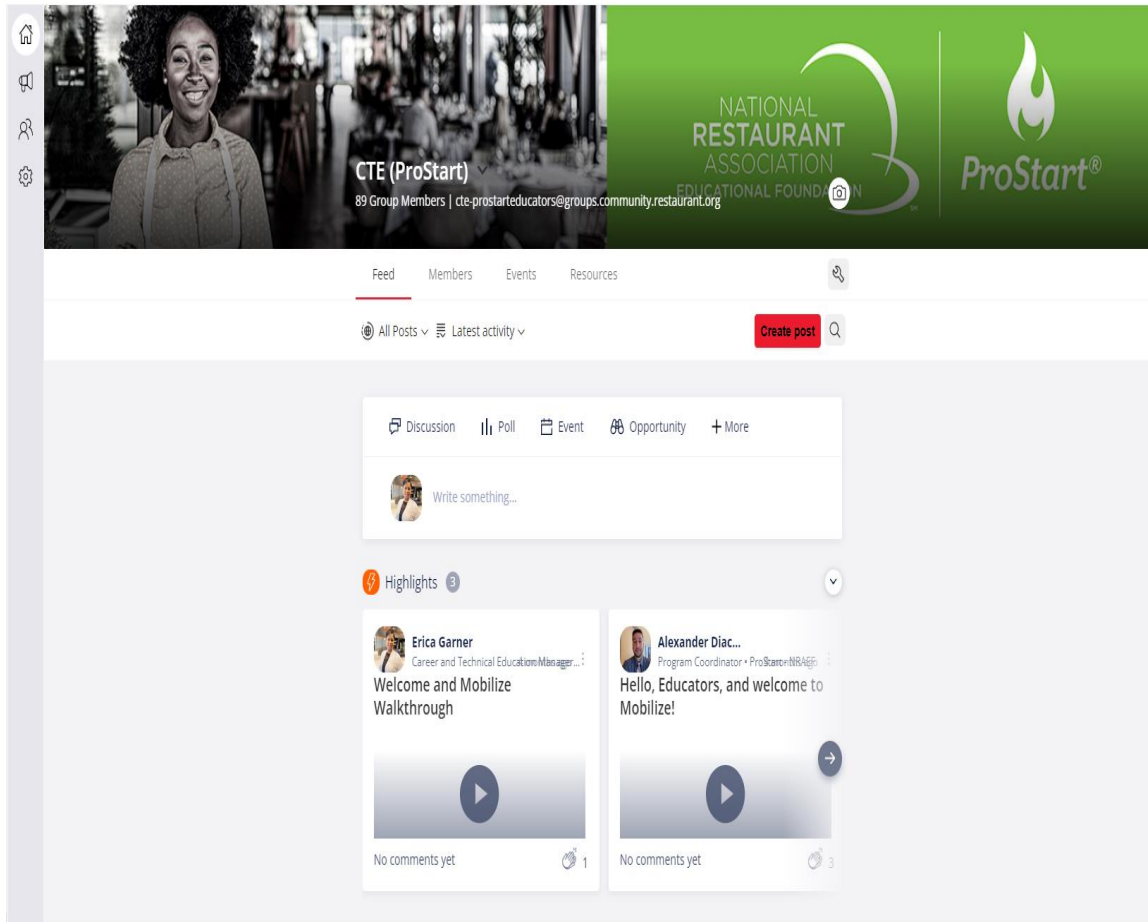

Mobilize is an online community platform. The CTE/ProStart Community brings together educators and state coordinators across the country and the national CTE/ProStart team together in one place. We created this group so all stakeholders may network, ask questions, share best practices, host events, and create a catalog of resources for current and new ProStart Educators.

CTE/ProStart Community Goals

Support, Encourage, Uplift – maximize ProStart program performance, teacher engagement, and student support with positive engagement in the community.

Guided Community Member Engagement – use educator feedback and platform analytics to guide themes and overall support for community growth.

**Come for the network and resources,
Stay to enjoy all**

How does it work

Community Leaders

A team of community leaders comprised of ProStart educators, state coordinators, and the NRAEF ProStart team will curate community themes and events and serve as a resource for member inquiries.

CTE/ProStart Community Guide rails

Keep it positive – This is a community of encouragement and support. Please maintain a positive attitude when engaging in the community. Even challenging discussions can be approached with a positive mindset.

Beware of copyright materials – Please do not post any copyrighted material. If you reference copyrighted material, it must be properly sourced and acknowledged.

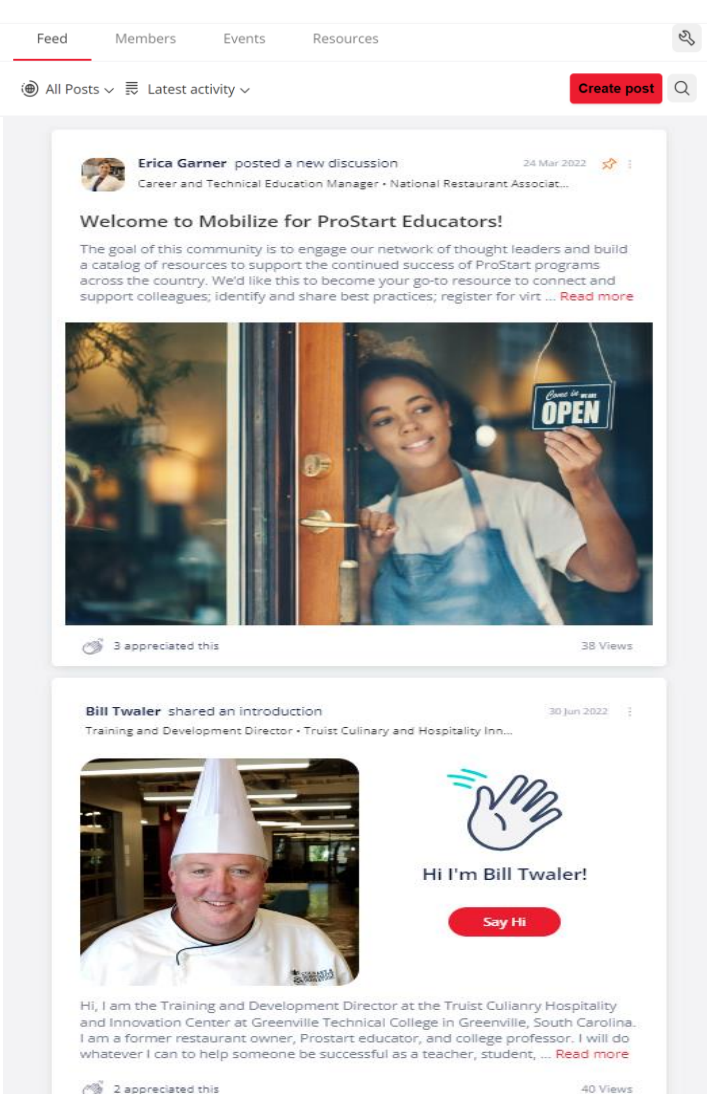

No sales or solicitations – This is a closed community and sales and solicitations are prohibited, with the exception of ProStart specific resources, vendors, and/or servicers.

Be mindful of program differences – Each program and state implements the program in different ways. Please be mindful of state specific content and follow up with your state coordinator if you have questions or concerns related to community posts, announcements, etc.
