MONDAY, AUGUST 10 | 9 AM
McKimmon Center

Lee Bridges

*Chief Product Officer
Inn-Flow*

Lee Bridges is Chief Product Officer at Inn-Flow, a hospitality operations platform that brings accounting, labor, facilities, procurement, and payments into one connected system for hotels and hospitality groups. He leads Inn-Flow's product and technology strategy, with a focus on putting AI to work where it quietly removes effort: automating the manual back-office tasks that slow teams down, rather than piling on new tools.

A North Carolina-based product leader with more than 15 years of experience, Lee previously served as Vice President of Product at XOï, where new product launches helped drive 10x revenue growth and fueled a \$230M capital raise in the field service industry. He has also held product leadership roles at 360 View and MediaShout, and holds a certification from MIT in Designing and Building AI Products and Services.

Earlier in his career, Lee worked in the music industry as a producer and engineer on Gold- and Platinum-selling records.
